Good Beer Guide Belgium

Synopsis

Recommended reading in the Rough Guide to Belgium, this guide to breweries, beers, and bars is acknowledged as the standard work for Belgian beer lovers, even in Belgium itself. Building on 20 years of research, this is not just a beer guide, but a side door into the culture of a nation. Information for tourists traveling to one of the great beer nations includes comprehensive advice on getting there, being there, what to eat, where to stay, and how to bring beers back home. Tourists are guided to more than 600 quirky beer cafés of every style and genre, and also given background history and an insight into all of Belgium's eccentricities. Full-color throughout with both province-by-province and city maps, this guide is suitable for both leisure and business travelers, as well as for armchair drinkers looking to enjoy a selection of Belgian brews from their local beer store.

Customer Reviews

Even if you aren't going to Belgium, you'll probably want to after reading this. Been reading a bunch of guide books like crazy, and researching online, but this has to be the best guide book I have read yet. I don't know if it is because they have such a specific topic but this book was really easy to read, and extremely easy to understand. I have yet to go to Belgium and check the accuracy of the information, but seems really informative and a great read. The authors write in a great voice and are very knowledgeable. I'm a home brewer and love beer, but learned a lot from this book and this really helped finalize the itinerary for my trip to Belgium which is coming up soon. I've just been borrowing books from the library, so I was hesitant on purchasing this book for \$20+, but it was very

worth it.

Content dense. I'm going to Belgium in April and it is my main reference. Several re-reads will be required to absorb what I think I need to know to have a great beer vacation. The authors are very knowledgeable but have their own biases. They favor emerging beer concepts over traditional styles. I think the experience will be fine as long as I keep that in mind.

Nice book and very helpful for sorting through what you might want to check out while in Belgium. I am hopeful the rating system will help us choose--so many beers there to try!

This is the best beer guide I have ever read. Insightful and full of tips for the traveler.

The only guidebook we took to Belgium, and the only one we needed.
