## Synopsis

Everything you need to prepare for the GMAT exam with one click! The GMAT Official Guide Bundle includes The Official Guide for GMAT® Review, 13th Edition, The Official Guide for GMAT® Quantitative Review, The Official Guide for GMAT® Verbal Review. All three guides feature real GMAT questions and their answers written by the creators of the test. In addition to more than 1500 questions between the three guides, the GMAT Official Guide Bundle features:

- A new online study companion with 50 Integrated Reasoning questions and answer explanations\*
- An Integrated Reasoning chapter with details about the new GMAT exam section
- A 100-question diagnostic exam to help focus your test preparation efforts
- Grammar review covering concepts tested on the GMAT Verbal section
- Sections on Reading Comprehension, Critical Reasoning, and Sentence Correction
- Comprehensive math review covering concepts tested on the GMAT Quantitative section
- Problem Solving and Data Sufficiency questions that review arithmetic, algebra, and word problem
- Helpful tips to help you prepare for the GMAT exam

Please note: There is no overlap between questions found in The Official Guide for GMAT® Review, 13th Edition, The Official Guide for GMAT® Quantitative Review, The Official Guide for GMAT® Verbal Review, and GMATPrep® software. The new practice questions in the 13th Edition replace 155 practice questions from the 12th Edition. The remaining questions overlap. \*To use the Integrated Reasoning companion website, you must have one of the following browsers: Safari, Google Chrome, Firefox, or Internet Explorer version 7 or higher.

## Customer Reviews

It's a good question bank with actual retired questions from past years. However, the only reason I am giving a low rating is because of the 3 book set, Verbal one has around 100 pages missing. I believe by mistake they inserted Quant section twice and now I am missing most of RC section. Obviously the return window expired by the time I got to this specific section and now won't return.

The Official Guide is requisite for GMAT prep. I spent 2 months going through the Manhattan series and then 1 month going through the OG. Going through practice questions and practice exams tied the concepts together and was a confidence boost. (Not at first. I struggled a lot.) 3 months of studying with the Manhattan series and OG, maybe 15 hours a week, no class, scored a 710. Pretty content with the score for the effort spent.

This set is a great way to get started studying for the GMAT. I used it more for the math section because some of the math and formulas I have not used since high school or college. Great examples and how to solve them. I am still studying so we will see how good they really are soon.

Overall, I like the questions offered, and that they come "straight from the horse's mouth," so to speak. However, I can't give this bundle a great review because the verbal book has an egregious error--it's missing 100 pages, and instead just copied and pasted 100 pages of the answer section to the Quant book instead. Really absurd. And of course, by the time I figured out the mistake, the return period had expired. Good questions--just wish that someone had spot checked it before printing a million copies!

I am really not pleased with the product, because more than 50 pages are misprinted in my Verbal Review book. All the critical reasoning questions are missing, and instead there are useless problem solving answer explanations. Regards.

These books are good to provide Questions to practice - however I took advantage of the Kaplan GMAT Prep Book as it offered priceless tips and strategies that gave me the confidence and skills to write this exam! If you want a serious score (700+) you need to know the tricks of the trade, Kaplan offers them. Good luck!

The review about it being the 2012 edition must not have bought directly from . Alternate sellers

have the item for a bit less, but some of their descriptions are listed as having the 2012. I received the 2013 Edition of the Guide along with the 2nd Edition of both the Quantitative and Verbal reviews. This is absolutely perfect for me to prepare. Thank you .

The fact that it's not just one book but three books makes it perfect for preparing for the test. In the first one you can get the bigger picture and then you can focus either on verbal or quant and use the other two books. It was well worth the money. Really happy.
