## Customer Reviews

If you are just starting out with GMAT prep - get this bundle; it's a good deal for the Manhattan GMAT Guides (separately they cost close to \$150). These books don't emphasize tricks or easy ways to 700+ score, instead they methodically cover areas tested, and should be pretty much all you will need (besides the Official Guides - see below for links). If this is above your budget, then would recommend you pick the best of the pack:- Number Properties Guide (condensed overview of Arithmetic and strategies for saving time/solving questions more effectively)- Word Translations Guide (includes some of the hardest topics - probability, combinations, and statistics)- Sentence Correction (best book out there and closely followed by PowerScore SC)- Critical Reasoning (only second to PowerScore CR but by a slim margin)- Reading Comprehension (there are no other dedicated RC books on market really)Between these 5 books you should have 80-90% of the GMAT covered and the rest could be picked up from the remaining books and practice with the Official Guides. You can throw in a Kaplan Premier as well - a good intro to GMAT book with 6 free GMAT Tets. It is a good starter book to get your feet wet, but definitely not a must.To make the most use out of the MGMAT guides, you will need the Official Guide 12th and also
