What a delightful gift this book is !! Ms. Ellis has created a volume full of the most flavorful and clean-tasting combinations I've ever eaten ! (and I'm a good cook !) No bland tofu here ! Lots of flavor ! And most of her recipes take less than 30 minutes to prepare... a real plus for the busy person who wants to eat healthy but also works full time. The book also contains suggestions for life style changes to lose weight, fight disease, feel terrific and look better doing it ! Photos of the food will make your mouth water. And one only has to see the photos of Ms. Ellis to believe that her methods do work. She looks beautiful, healthy and happy ! I am thrilled with this book and do hope

there will be new volumes to follow .

The book arrived an hour ago and I sat down to read for just a minute - now here I sit, with a bowl of my first ever homemade Hummus! And it's great! I'm not a "cook" at all, but I'd read the earlier article about the benefits of garlic, and it inspired me to add half a clove of garlic to the Hummus. Now I feel like Super Chef - I'm going to make it for my next book club meeting. The book is packed with photos and I love the combination of recipes, information, variation suggestions, web links, tips, and the "Stone Soup" story. Bravo.

I want say Yhat I own a meat company and do not always eat the healthiest. So this book of great recipes which some times we not vegan types have to pay attention if we want to live longer and healthier. I have tried eating some of the SUPER soups and they tasted great and I did not feel cheated and will share with the author that I may add some lean beef to some just to balance my with my lifestyle. I look forward to volume 2 and more great tasting , healthier foods. John Nebraska
