I'm glad I got this at Half-Price books and not at full price and that I was already familiar with most of the trainers' methods. The author is very biased, meaning she accepts Classical training methods and whoever agrees with her. Natural horsemanship is not acceptable in her eyes. She is also very hypocritical. It is okay if GaWaNi Ponyboy or Monty Roberts says something, but not if Pat Parelli or Richard Maxwell says the same thing. Maybe it is due to the fact that Ponyboy is a Native American and disagreeing with his ancestors' methods would be politically incorrect and because Roberts is held in high regard by Her Majesty, The Queen Mother (the author is English). If you really want to explore the top horse training methods read *Natural Horse-Man-Ship: Six Keys to a Natural Horse-Human Relationship*, *The Man Who Listens to Horses*, *Horse, Follow Closely*, *The Classical Seat*,
