Nickie Dumke's breadmaking book is a MUST have for those of us who suffer with food allergies. She takes all the guess work out of how to convert a bread recipe so that it will really work. Before her book, homemade bread was out of the question unless one was going to use traditional ingredients. I highly recommend this book. The recipes are easy and the product is delicious!

My husband must also avoid dairy, and most of the recipes required milk products.

I bought this updated book to replace my well used previous book and found this one slightly different in format but the context is good and the receipes work well and taste great.
