However, many of these food making, and preparing processes have been made easier, with the use of technical machinery. So in grandmotherâ€™s time, when food was prepared by chopping, slicing, dicing, and mixing and mincing was done by beating up the spices and the herbs in a pestle and mortar, nowadays we have food processors ready at hand.

Customer Reviews

I was very disappointed. It didn't talk much about the food processor. Just some recipes I can make without food processor
