Synopsis

A streamlined, workbook-style approach to the A&P lab. This full-color laboratory manual is designed for instructors who teach a two-semester anatomy & physiology lab course, but do not require the full range of laboratory exercises found in Mariebâ€™s best-selling Human Anatomy & Physiology Lab Manuals (Cat, Fetal Pig, and Main). This lab manual is written to complement Mariebâ€™s Anatomy & Physiology, Sixth Edition, but can be used with any two-semester text. Instructors will find 27 concise, activity-based lab exercises that explore fundamental concepts in anatomy & physiology and build studentsâ€™ observational and laboratory skills. Each lab is presented with learning objectives, cogent summaries of key concepts, and meaningful activities. For instructors who want their students to experience how to use a microscope, a complete exercise on its use and care can be found in Appendix A. The fully revised Sixth Edition provides a more active, workbook-style approach that incorporates more visual summary tables, streamlines information, and engages students with hands-on drawing and review activities. Each lab includes a list of materials needed for conducting the lab, a complete list of learning objectives at the beginning of each exercise to help students track their progress, and up-to-date terminology in accordance with Terminologia Anatomica and Terminologia Histologica. The lab manual also features a full-color, extensive Histology Atlas, integrated Review Sheets with new full-color art, and new art and photos that help bring A&P to life.

Book Information

Series: Anatomy and Physiology
Spiral-bound: 392 pages
Publisher: Pearson; 6 edition (January 17, 2016)
Language: English
ISBN-10: 0134206339
Product Dimensions: 9 x 0.5 x 10.7 inches
Shipping Weight: 1.1 pounds (View shipping rates and policies)
Average Customer Review: 5.0 out of 5 stars Â See all reviews (1 customer review)
Best Sellers Rank: #62,277 in Books (See Top 100 in Books) #11 in Books > Computers & Technology > Software > Personal Finance #158 in Books > Medical Books > Basic Sciences > Anatomy #164 in Books > Textbooks > Science & Mathematics > Biology & Life Sciences > Anatomy & Physiology
