A code book by any other name would be...a code book. Needless to say, if you need a code book on this subject and the jurisdiction you work in uses the IFGC...(think about it.)

As I contractor, I am required to be informed of the current codes and this is one of the books that helps me do the job right the first time.

Do this, don't do that, put this here not there, yea it a code book, when you need it nothing else will

do.
