## Customer Reviews

Excellent book with very good illustrations, pictures, and tips for doing it yourself. I've referred the info in this book over and over, I find the layout very user friendly.

A complete book with everything you need to know about Decks, Porches, and Patios with thorough illustrations. An excellent book to keep for reference.

Excellent quality wire bound edition. It had some great pointers on construction tips with good diagrams. I like this book better than two others I had from the local Lowes.

Checked this out from library--seemed excellent. Just bought it. Have big deck repairs this summer and felt it provided excellent guidance.
