Patio Roofs & Gazebos: A Complete Guide To Planning, Design, And Construction

Synopsis

Is there something shady going on here? The answer is yes, if you're looking for shelter from the sun. Or perhaps you're more inclined toward an open-style patio roof or a classic gazebo. Whatever you have in mind, the new 3rd edition of *Patio Roofs & Gazebos* has you covered. Start with the inspirational gallery chapter for unique ways to extend your living space outdoors, and then follow the step-by-step photo sequences to build an outdoor structure precisely suited to your needs.

Customer Reviews

This book was good for simple, basic overheads for patios and/or decks. It gave some limited plans and recommendations for lumber. It also listed a variety of roofing materials but was somewhat unspecific on the pros and cons of each. We liked what the book did offer, but finished it feeling rather unsatisfied.

Helpful information, but not as good as "Gazebos & Other Structures". I'm not sure that the editors actually have built any of the structures described. Lots of cutesy California designs. Great photos of construction techniques, some of which could be challenged.

For construction is a really good guide, also for beginners like me. However, they show some pictures and reference that we want to have the drawings, but then they show drawings for a

different design, just a couple of cases but disappointing

There are mostly pictures of different gazebos - no plans, comparison, etc.

Item as described. Thank you

Great ideas and Photos.
