Joel is just the greatest! I started watching him on Sundays about a year ago and now I can't miss him. He is such a genuine person and you can just tell that everything he speaks comes right from the heart. I truly believe he was put here to better everyone's lives. I can tell you from experience that his principles work! I had an investment property that was really doing damage to my life and I was unhappy in my job. I paid attention to his principles and became closer to God, next thing you know, the house sold and I got a job closer to home, making more money and doing something I

really love to do! I really contribute this to Joel. Just listen, open up your mind and follow his principles and you'll see changes in your life, all for the better. You'll find yourself getting chills often which I believe is the presence of God in your life.

Joel Osteen is blessed with the ability to convey important life lessons in a down-to-earth, understandable and inspirational manner. Each time you listen to this audio book, you will learn something new.

I'm not a fan of organized religion and certainly not televangelists, but, like so many, I find Joel Osteen's sermons to be very uplifting, inspiring, and positive. I would say that Joel Osteen leans more toward an inspirational speaker than a preacher. I bought the CD set to listen to in the car. Joel opens every sermon with a funny story. I have to admit, the opening stories/jokes are pretty good. However, at the heart of every sermon is a positive message reminding people that each of us is a gift and we all have a reason for being in this life. No matter how dark your life becomes or seems to be, there is always a light waiting to help and guide you. I have always believed that none of us is ever truly alone; not really. Joel's sermons will remind you to connect with God every day and to believe in and visualize what you want your life to be. Our souls remember why we are here. We just need to slow down and really listen. I highly recommend this CD set for anyone who is open to a positive message.

Enjoyed the CD set, Osteen is playful, fun, speaker, adds a touch of metaphysics, and offers lots of basic living sense. Every sermon offers gentle practical reminders about how to be the best you can be.

This CD is very uplifting! Very good, sound practical advice! I have heard several of Joel Osteen's CD's and they are all very good...however, this one is exceptional! Lessons you will definitely carry with you! Thank you!

Used these CD's during nursing school. If you are a believer then you know what I mean when I say that each teaching, each scripture Joel used, helped me get through the program. These are prayers for the day or spiritual advices for the day if I can say so. I twist it and used one for few days until I could feel it or understand it but each time regardless it has been a great help to go through my days. I use it now before I go to work and it works just as much. Amen!

My husband recently passed away and listening to Good, Better, Blessed has been a God send. Comforting me and helping me clearly understand that God is in control. Joel Osteen did return Purpose, Power, and Passion back to my life and listening to the CD inspires me daily.

The first CD I bought from Joel was the "I Declare"...I liked it a lot, however he is reading from his book and there is not the same energy as when he speaks his in sermons...This CD - "The Good, Better and Blessed" collection are from his sermons from a few years ago and they spoke to me!! My favorite is "CD 3" in the collection which speaks about having a Vision and about having Dreams...I have found it very helpful to listen to it over and over again...It is FINALLY starting to sink in for me!! Joel "boosts you up and makes you believe and feel better"...It is VERY uplifting to listen to him!!
