## Customer Reviews

This book does not tell you how to make vinegar. It tells you how to flavor it. It was disappointing since I brew beer and make wine. I was hoping to make base vinegars out of my leftover wine. Oh well.

This book clearly walks the reader through making flavored vinegars easily in their own home. I enjoyed the informal, chatty style the author used. My only complaint is that I would have liked a few more recipes for using the flavored vinegars, especially more ordinary dishes. Some of the recipes are a little too much on the gourmet side for me and the people I'll be giving my vinegars to. Otherwise than that this is great way learn about flavored vinegars.

I thought this was about how to make vinegar from scratch but it wasn't. This tells you how to make flavored vinegar from store bought vinegar only. If that is what you are looking for then this is perfect for you. I shall keep looking for the perfect booklet. Disappointed.

Although this has some good recipes in it, it is not exactly what I was looking for. I was wanting to make my flavored vinegars from scratch and this doesn't really cover that.

I have yet to use these recipes but I have read through them and they appear to be easy and straightforward. I look forward to trying some of them.

these little books are super for providing concise information about a specific topic. Well worth the cost.

not really what i was looking for but does have some good recipes
