Customer Reviews

This book has excellent recipes for a wide range of soups and stews. There is a small reference section in the back which is helpful. As with all books in the series, the photography is gorgeous and the recipes are easy to follow.

Loved this book. Great pictures. Love the side captions. William Sonoma does it right with these books. I own the entire collection and plan on having them for a very long time. Hopefully one day will be able to say I made every recipe in the book which seems possible. Some people may not like the limited number of recipes but I feel this is a great example of quality over quantity. Somebody really put some love in this book and it shows. Everything I have made so far has been great. Once

you buy one you will want them all.

Have had mine for a while now. Bought this as a gift for my mother-in-law because we both love great cookbooks. The recipes are wonderful and it's fun to see beautiful photos too. Loved the Manhattan Clam Chowder the best so far.

I gave this as a gift and had occasion to sample some of the soups and stews which made me decide to get a copy for myself. My friend to whom I had originally given it had two care-givers who asked for copies, so I bought an additional two copies.

I don't think I've ever had a "bad" William Sonoma cookbook and this one is no exception. I purchased as a gift along with a soup pot and bowls, but checked out the book before wrapping. Had a lot of great ideas and recipes - if you like soups.

Love these books because you can focus on a certain aspect of cooking. Have others in this series as well and they are well illustrated and present the information in a user friendly format. Would buy again and definitely found best prices on .

Thank you for this great book! I can't wait to put it to good use and the pictures are truly tantalizing! This makes you want to get a big load of crispy bread and settle in with a bowl of one of these awesome recipes!

I bought this for my son who wants to learn how to cook soups now that he is living on his own. He made a chili and said it was better than mom's! Well. Glad he likes the book.
