Customer Reviews

The first *Oh She Glows* (OSG) cookbook is one of my absolute favorite cookbooks, and Angela Liddon's blog and then her book helped me make the transition to a vegan diet about three-and-a-half years ago with ease. I pre-ordered this follow-up by Angela Liddon back in March,

and am so happy that it's finally out. It's full of healthy, delicious recipes that are easy to make. One of the things I love about the OSG recipes is that they are delicious and use whole-foods ingredients, with no artificial products. My husband isn't vegan, but he always love it when I make something from OSG. This new cookbook features all-new recipes, and is divided into the following chapters: * Smoothies and Smoothie Bowls* Breakfast* Snacks* Salads* Sides and Soups* Entrees* Cookies and Bars* Desserts* Homemade Staples The last chapter (Homemade Staples) is especially handy in that Liddon has recipes for things like vegan mayo, cashew sour cream, vegan parmesan, and other fridge and pantry staples that are useful to have on hand. Each recipe also features the prep time and serving sizes. While the entrees obviously take longer to make, many of the recipes come together really quickly. When I got home from work tonight, I made both the Cookie Dough Balls and some Coconut Chia Seed Pudding, and both were delicious. If you're new to some of the ingredients used (for instance, things like chia seeds and nutritional yeast may be new to some folks), Liddon does a great job in the last recipe chapter of explaining the why's and how's of why some of these ingredients are staples for her and how to use them in your own cooking.
