This is an awesome book! I gave it to my mom who is a big knitter and very picky about her books. When she got this book for her birthday she must have knitted all of the rugs in it they all turned out beautiful! She loves the patterns! All of them have very detailed step by step instructions! Would recommend this to any knitter!!!!

This incredible book has something for everyone! There are some rugs that are traditional and remind me of vintage rugs and others that are free form and wildly creative. Whether you are a novice or master knitter, you will find something that you just gotta make! The colorful photos and clear instructions make this a must have for all skill levels. I LOVE THIS BOOK!

I was lucky enough to get a copy of this book hot off the press! It has AMAZING patterns for very unique rugs! All of the materials are readily available, and very inexpensive. The patterns are very easy to follow, even for a very novice knitter like me. There are more difficult patterns too. I think I will make the Color Wheel Rug for my granddaughter. This is a must have book for any knitter!!!!

I seldom find a pattern book that has this many inspiring projects in it. I usually want to make one or two of the patterns offered in a book like this. In this book --I want to knit them all!! The directions are very clear, the pictures of the rugs are beautifully presented and I am enjoying every minute of it. If I could give it more stars, I would!

THIS. IS. AWESOME. There are so many great patterns here. I use to say that if you found ONE thing you liked in a book, it was worth the price. I can't find one thing in this book I DON'T like. Many of these will be THAT piece that you use as the focal design of the room. I would love the Seaside Freeform rug for a kids bathroom. With the first grand baby on the way, I'm eyeing the Color Wheel rug and the River Runs Through It rug. The Feelin' Groovy T-Shirt rug just makes me want to run me feet over it. The artists/authors give a story account of each of the rugs, making them conversation pieces as well. And while this is a book of patterns for 'rugs,' many of these would make great wall hangings or table runners. Well, there is one problem with this book - you will have to decide which rug to knit first.

I can't wait to start knitting several of these rugs! I have a large "craft/design studio" in my home and everything has a knitting theme. Will be making several for that room. One of my favorites is an oval of leaves, it is by far one of the most innovative designs I've seen in a long time. That will go in front of the fireplace. You will not be disappointed! Great for using the cheap acrylic yarns which will take a good amount of wear and tear.

This is a terrific, well written book. The instructions are concise and helpful, which is wonderful when thinking about tackling the more esoteric projects. I have started the hit and miss rug which is a very exciting way to use up my odds and sods. I look forward to making good use of this book throughout the winter!

I am in love with this book! The patterns are brilliantly fresh and creative. All of the patterns are clear and easy to follow, and even the more complicated rugs are explained in simple terms that any knitter can follow. The Feeling Groovy rug was incredibly fun to make and I am so pleased with how it turned out. The Forrest Floor rug is so beautiful, it just blew me away, and I cannot wait to make the Seaside Freeform Rug. Love!
