Customer Reviews

I saw the author on the HGTV channel and was particularly excited about 2 of the projects featured. After visiting , I also ordered another book, "The Artful Ribbon". The photography and projects featured in "The Splendor of Ribbon" are lovely, however, the directions (which one would need to actually learn how to make these flowers) just plain baffled me. The diagrams are not very helpful and frankly, I never could get past the first 2 sets of directions without total confusion. Frustrated, I went to "The Artful Ribbon" and found this to be the more instructive book. Sadly, I am returning "The Splendor of Ribbon", keeping "The Artful Ribbon" and upon others recommendations, ording Helen Gibbs book "The Secrets of Fashioning Ribbon Flowers".

This book covers some aspects of "Ribbonwork". Easy to follow with illustrations and explanations of various Ribbonwork techniques. Has different projects to try with instructions and pictures to guide you along.

This book of course, uses only Offray ribbon, but the ideas are wonderful regardless of which company's ribbon you have on hand. The projects offer great ideas and are usable in today's crafting. The higher end ribbon & trims Offray offers are beautifully used in some of their craft ideas.

This book has wonderful projects and ideas for crafting with ribbons. It was written by Ellie

Schneider (now Ellie Joos), who is an expert in the field.

Haven't tried this yet, but it looks as if it will give me some great projects for gifts and some great ideas.

book does not explain steps well.
