Customer Reviews

I am planning a trip to Costa Rica and this book was on the recommended reading list but it is totally dedicated to Spanish language in Spain. All the references regarding currency, food, travel, lodging, social etiquette are oriented to the tourist in Spain.

This book is a tiny size, and covers all the basics for traveling. Most phrases have a pronunciation guide underneath, which is invaluable if you're unfamiliar with the difference between Central/South American Spanish and Spain Spanish.. definitely worthwhile if you need to travel light, or don't have a lot of time to dedicate to studying the language. Light on the grammar, but full of necessary conversation.

Very useful specially when you may have smartphone app to translate Spanish to English but no internet/ Wi-Fi /data plan.You can just show what is written in Spanish & they can direct you.

I like a lot of the phrases they included - they are the more useful and more commonly used, but not at all easy to access at a moment's notice. The organization/layout of it wasn't helpful when you're walking the streets and suddenly need to ask a question. I was constantly digging to try to find what I was looking for, which isn't great when you're trying to have an impromptu conversation or business exchange.

Could never find what I needed, when I needed it, in this book. Must be the way it's organized.
