## Customer Reviews

I just received my book in the mail today (first one from this author). I was a little disappointed to see that there are no photographs for any of the recipes (not even in black and white). There are black and white illustrations, but most of them look like random clip art that are not related to the recipes. Luckily, the recipes aren't complicated. They look easy to make and don't use too many ingredients. The instructions are short and easy to understand, so that helps to get a quick idea of what it "may" look like. But it sure would have been nice to see a photograph or a detailed illustration of what the dish is suppose to look like in the end.

I really like the Gooseberry Patch cookbooks. This one is no exception! Almost every time I see a new Gooseberry Patch Cookbook on , I buy it.

Love anything Gooseberry
