## Customer Reviews

Usually when I find a cookbook there are only a few recipes I would even try. I would probably try all of these. They all look so good!

Gretchen Scalpi is amazing! For those of you who have just received a diagnosis of "pre-diabetes", Gretchen will answer your questions and give you amazing recipes to help lower that glucose count!

after the shock of being diagnosed as pre diabetic, this book was a life saver both mentally and

physically. I could eat a lot of foods that I thought would be forbidden. recipe directions are straight forward therefore basically quick to put together. I will be using this book a lot!

Since I was just diagnosed I have been looking for a book just like this one. Clear, honest with a mix of valuable information as well as the recipes.

This is a very good book for a person who has no idea how to deal with Pre-Diabetes. The recipes are mostly easy and tasty.

I'm not a diabetic (or pre-diabetic) but was looking for a way to plan meals and menus to reduce my glycemic load. This book did not really offer any help. It advised working with your doctor or a nutritionist. If I did that then I probably wouldn't need the book as I have already heard most of the information in it .

Very nice cookbook. Hard to find cookbooks for Pre-Diabetics.

I have used many of the recipes and haven't found any that I don't like yet!
