# Designer's Best One-Story Home Plans: Over 300 Best-Selling Plans

## Synopsis

Three of America's top-selling and award-winning Residential Designers carefully reviewed their portfolios and selected 320 best-selling, single-story home plans, and compiled them in this beautifully photographed and illustrated collection. These stylish and comfortable plans all feature easy, one-level living and many have been "zoned" for comfort and privacy, with master suites positioned away from the kid's and guest bedrooms. No matter what your taste or budget, there is sure to be a home in this collection that is perfect for you.

## Customer Reviews

these house plans are very lovely and fun to look at. If you are building, I highly recommend you add this to your research before you make that final decision.

There are one or two really unique designs, the rest are fairly standard alterations of each other. The layout of the book however is fantastic, giving different sections for over all square footage. Even with the slight differences there are still over a few hundred different ideas so you're pretty likely to find something you really love- or heck, something you really like that you can make into something you really love.

I bought this book and have really enjoyed it. In fact I found my dream home contained in it. It has a lot of really nice plans so it was hard to choose, unlike other plan books that have a bunch of really old and uninteresting plans. You will enjoy this book.

Not exactly what I was looking for. It has many plans, but a lot are similar. I'm looking for 1200 - 1500 square ft with only 2 bedrooms. That's difficult to find anywhere.

There is a good variety in this book and it was nice to have it limited to one story. Hard enough to choose a design but adding more stories makes it harder.

good

Nice options
