Los Angeles Times Cookbook: 1,000 Recipes of Famous Pioneer Settlers Featuring Seventy-Nine Old-Time California Spanish and Mexican Dishes (Cooking in America) I purchased this cookbook because I have purchased LA Times cookbooks in the past and love the sophistication of the California Cuisine featured in their recipes. The recipes in these previous books are a great mixture of best uses for all the fresh food available year round here and local ethnic flavors that have influenced the food found in this region. I decided to purchase this cookbook because it also features recipes of early local settlers and the title contained the words Los Angeles Times. However when it arrived I found that the cookbook was a slim volume that crammed all 1,000 recipes into just 106 pages in print so tiny it cannot be read even using reading glasses! I typed a passage to measure the point size. 12 point would be regular legible text but this is 6 point! Unless you are planning on cooking with this using a magnifying glass, don't bother purchasing it! Just who did Applewood Books think would be buying this? Because it features antique recipes, I believe that answer is old

people; not one of whom could possibly use this book.

This is a reprint of an older book. It adds to the history of the region through food and it is hard to find an original. It is a fascinating and wide glimpse into recipes submitted to or obtained by the newspaper, LA Times.

I purchased this cookbook thinking it was like the LA Times California Cookbook, NOT. This is a very hard book to read, need a magnifying glass to read it. Do not buy it.

As LA Times cookbooks go, this one was disappointing - the print is too small for me. I just wish it had been printed in a larger font.

If you've ever saved the LA Times food articles, then this is the book for you! California cuisine at it's finest.
