## Customer Reviews

I have been so looking forward to this book. As a big fan of twinkiechan and her patterns, this book was a must have. And for anyone wondering whether her patterns are easy to follow, they are! They

are a lot of fun to make, too. I'm currently making the cherry pie seat cushion (I nearly fell over in excitement when I saw the pattern, I just recently got barstools that are in desperate need of cushions). Lots of fun and unique patterns that I cannot wait to make and give to my family and friends.

I've been looking forward to this book for months and it does not disappoint! I was drawn in by the adorable banana split cushion on the cover, but the other patterns are just as adorable. There's something for everyone here. Beginners will love patterns such as the licorice wrist rest, the breakfast-themed dishcloths, and the cherry zipper pulls. Amigurumi lovers will adore the mini food fridge magnets, the taco pencil case, and the tv dinner tablet case. Anyone looking for a challenge will certainly enjoy the standing mixer cover, the banana split cushion, or the giant donut cushion! The instructions seem to be clearly-written and understandable, but there aren't many in-progress photos, so make sure you understand the special stitches and techniques needed for your particular pattern. There is a short section with basic techniques in the back, but you can do just as well by watching youtube videos if there's something in particular you don't understand. You will love this yummy book!

I've just got this book and have already made quite a few items from it! I've made the donut magnets and enlarged the animal cookie garland into animal cookie plush toys! I'm in the middle of making the tv dinner tablet cozy and I'm sure once I'm done with that I'm going to jump right into another project from this book! The patterns are easy to understand and make the most adorable things! I love that unlike most books this book uses yarn from craft stores, they are easier to find and not as expensive as some of the yarns other books use to create the designs. This is an excellent book and I recommend it for any crocheter.

I pre-ordered this as soon as it went up for sale. I own Twinkie Chan's previous book and I think just about every pattern she has out. I received Crocheted Abode this morning and tore right into it. The book has different sections: 1. Kitchen and dining 2. Living and Lounging 3. Bath & Beauty 4. Home Office I would make almost everything in this book which I don't usually say. I have read through the patterns and the supplies and everything was easy to understand and the supplies are easily available at all the regular craft stores. If you love crocheting cute stuff or are looking into crochet I highly recommend the book!

I love this book! Everything is super cute and kitsch (in cool sense not the dictionary definition) which I love! I appreciate how TwinkieChan wrote a lot of the patterns in less expensive yarn so you don't break the bank on the projects. I've already made a couple things and I've started the giant donut poof which I got all the yarn at the big-blue-starts-with-a-W store (am I allowed to say a rival store's names on ?) on the cheap, woot!!

I don't want to spoil anything, but this book is everything I hoped it would be and more! I want to make every single project, I'm so excited!!! This is a must buy for anyone who loves cute, sweet, home decor and crochet!

All the patterns in this book are cute, kitschy and adorable. The patterns are written clearly, and anytime a stitch beside sc or dc is used, it is clearly explained. There are multiple pictures of every project, so I would give an extra star for that if I could. I would rate most patterns intermediate, but am adventurous beginner will do just fine.

I bought this book for my daughter so that she could make me a Christmas gift. She loves to crochet and told me about this book. Now I want her to make me a Christmas, birthday, Valentines Day, Easter.....well you get the idea
