This has made my wedding planning so much simpler. The PROs: It is so organized! Everything is tabulated, including sections for the timeline and budget, the outfits and styling, the catering, the entertainment, etc. There are pockets included for holding receipts and business cards, which was very handy. The binder opens and closes, so you can add more pages yourself, such as menus, contracts, etc. The CONs: The binder seems to be written under the assumption that you are an heiress with an enormous wedding budget. (The sample budget was \$30,000, not even in my ballpark!) It constantly suggests you get a wedding planner, when the whole purpose of the binder is

to plan it yourself. Some people have argued that you could easily print out all the pages online and made a similar binder yourself. That's possible, but in this case, someone else has already done that for you, and in a nice, sturdy binder. Isn't that worth saving yourself one more thing to do? :) I took this with me to every meeting we had with different venues and shops and it has been a lifesaver.

This binder is amazing! It has everything you need to stay organized and plan your wedding and you can take it with you anywhere! I love it! Getting married August 6, 2016!

I purchased this planner, as well as *Wedding Planning for Dummies* and *The Knot Book of Wedding Lists*. I haven't even opened the other two. This was perfect -- from the timeline to dress how-to's, it was the only thing I needed. It's kept me organized and on schedule, and I feel confident I haven't forgotten any details.

After reading previous reviews, I was skeptical to buy this. I wanted a binder so that I can hole punch contracts, etc. to place in the binder as well. It has PLENTY of room for whatever you want to add. There are also a few pages that might not apply to your particular wedding, but they can easily be removed and you won't even know they were there! This really is the perfect wedding planner/binder. You can even remove the sticker on the cover without leaving a mess so you can put your own cover or leave it plain. LOVE IT.

Great way to organize your wedding and also gives new brides an idea of what they need to do to start planning. It has timelines for one year engagements and 4-6 month engagements. The first few weeks of my engagement, I just flipped and flipped through this binder and created an excel sheet with everything I needed to do - from costs, to timeline, to what vendors I needed to contact. Using this with the knot's website has been very helpful!

This needs to be updated for today's brides. There are many things on the timeline check list that if you follow the timeline, you will be left with little to no options. The budget is unrealistic especially if you are a bride in a major city where prices are very high. This planner gets one star because it was useful for one thing, the business card holding page in the back.

Save your money! Totally unnecessary expense. I bought this when I was first engaged because I

thought it would help me figure out what I needed to do. This might be helpful if I had a \$50,000 wedding budget and no internet access. With the help of Google, Etsy, Pinterest, and a little common sense, I've planned a perfectly small wedding for \$6000 without help of this worthless book.

going to make my planning for my wedding so much easier! this planner was a lot nicer looking than other ones that I looked at.
