## Customer Reviews

My daughter loves this book! We bought her a bunny, but soon realized that she was really too young to have that responsibility, so we had to find it a new home. But now she is determined to take the steps to be able to have one again, and she religiously looks over the pages of this book for knowledge.

This is a perfect starter book for kids, easy to read and understand, all the basic needs of rabbits and choosing the right kind for your needs. My girls keep using it for reference

Too young for an adult, but pretty useful otherwise. Easy to read and lots of go-to websites for more info.

Very informative!! My daughter is raising a rabbit to show in the FFA. I purchased this book because we had no prior experience of raising rabbits. It is extremely helpful. If you are raising rabbits for show, I strongly recommend purchasing the ARBA Standard of Perfection as a companion guide as well.

We purchased this for my seven year old - and he loves the book. Great photos and helpful information for getting started with rabbits. The only problem - now he wants more bunnies!

I bought this for my daughter and she loves it. She reads it almost every day. She is a 4H member and shows rabbits, and the knowledge she learned in this book greatly improved her project this year!

Got this for my daughter when she got her 1st rabbit. It was a lot of great information and helped her learn about her 4H project.

A great book for people just getting started with rabbits. Excellent book for 4-H and FFA members working with rabbits.
