Customer Reviews

Over the past several years I have collected a number of glass pieces as well as books to assist me in identification and out of probably 20 books this is my favorite. It is a great size to carry with me for auctioning or yard saling and has many of the most common pieces around. I do wish for a more current one with even more pieces identified but overall been the best for the price.

Helps describe and categorize my collections, plus price ideas.
