Customer Reviews

I was excited about getting this book, till I got it. I can't even read it. The ingredients are ok but the how to part is not legible. They are a font that looks italicized and what I would call a light gray. Very disappointed, next time I'll just go on line and download a recipe that looks good. Bill in Las Vegas

Sunset is highly regarded for its magazine recipes and topical cookbooks. This new one hits the mark again. It is easy to read; the photos are colorful (I love going through the cookbook just to see the pictures first); and the taste of the food is marvelous. There are options to lessen or increase the heat...I love it just the way they are. This is definitely a keeper!!!

This book has too many fancy recipes I wouldn't use. The pictures are quite nice though. It won't be used much, I'm afraid.

Arrived on time and well packaged. And who doesn't love more cookbooks! I do and love this one, beautiful photography and awesome, mouth watering recipes.

Really love this book- delicious recipes that are decadent, but practical. I have gifted this book several times, always with good response!

This is a beautiful and informative book. I enjoy it every time I use it. I recommend if you like good cookbooks with western recipes.

Sunset cookbooks are fabulous. Every recipe is delicious and even if you are reluctant to try one you probably will be pleasantly surprised with the results!

Love this book, I have only made one so far the meat stew with the corn and potatoes and stuff. SO GOOD! Would recommend.
