# Creative Dyeing For Fabric Arts With Markers & Alcohol Inks: Dye Scarves, Wearables, ATCs, Postcards, Quilts And Stitched Collages

## Synopsis

Experience the excitement of dyeing your own fabrics with simple materials... permanent markers, alcohol inks and alcohol. Over 40 techniques make this book a valuable reference for every fabric lover.

## Book Information

Paperback: 52 pages

Publisher: Fox Chapel Publishing (January 1, 2009)

Language: English

ISBN-10: 1574216597

ISBN-13: 978-1574216592

Product Dimensions: 8.5 x 0.1 x 11 inches

Shipping Weight: 8 ounces (View shipping rates and policies)

Average Customer Review: 3.9 out of 5 stars [See all reviews](#) (30 customer reviews)

Best Sellers Rank: #659,970 in Books (See Top 100 in Books) #79 in [Books > Crafts, Hobbies & Home > Crafts & Hobbies > Needlecrafts & Textile Crafts > Dye](#)

## Customer Reviews

The last review warned of impermanence. All color from any dye or paint will eventually fade. If the color is fixed properly that can be diminished to a GREAT degree. So don't worry as much about that factor. For me personally, I feel it is not worth the price. I am an experienced silk painter, and with just a little playing around, I was able to achieve several lovely pieces with Sharpies. I would certainly not recommend this as an initial foray into silk painting, but if you're a quilter just wanting to experiment, and you're fat with cash, go for it. Just make sure to verify fixing technique, ironing on back side is said to be the correct choice for alcohol based pens, but I use a combo of ironing and steaming, because I use mixed media and have to cover all bases.

Having used Sharpie markers on fabric, only to have them fade out in a very short period of time, I would caution anyone NOT to use them if they plan on exposing them to light. They fade out dreadfully in sunlight and some colors bleed as well. Even the Sharpie official website says DON'T USE THEM ON FABRIC!

If you want to have some fun and create lively & colorful garments then get this book and you will have a ball. These projects can be done by anyone including children, who will love decorating their

old t-shirts with sharpies. All the directions are in this book and you probably have everything at home right now.

I bought this book to help give me more ideas to do projects with my grand kids. They love to draw with markers so what better way to show them how they can color a scarf or plain white tennis shoes. Lots of fun stuff. The colors fade if not heat set so if it's possible, try to heat set the project when it's done and dry. Ironing or putting in a hot dryer is what I do.

This is one of those rare craft books that contains a lot of information and hands on reference that is very useful and is much appreciated. I have not found that true often, but this slim volume has a lot of techniques packed into a compact book.

Opens new doors to dyers. Who knew Sharpies deleted with alcohol would create wondrous abstract art? This craft is easy and requires little in the way of equipment. It's more of a booklet and there's a lot of duplication of ideas. Fun find for crafters.

Could not find the book at home, because I have so many watercolor books and it was put somewhere else. However by looking at what I have see from the online sample source of pages, they designs in the book are simple. I was looking for more complex designs like Hawaiian shirt style. Also, the designs are bleed out a lot and mostly showing scarves. I was look for dyeing Hawaiian shirts instead.

Can't wait for the grandkids to come over..we are going to dye every white shirt in the house! Great ideas and shows all kinds of designs you can create!
