Expand your fabric "stash" and create your own beautiful, easy to do hand painted delights. Sue Beevers's recipes are easy to follow & all the paints & supplies are easy to find around your home & the local craft store. As a quilter I found this book to not only get my "juices flowing" painting delicious fabrics, but to also nudge me back to the design wall! This is an excellent addition to any fabric artist's library. Even if your time is limited, you can create beautiful fabrics very easily. Once you do one recipe you'll want to do them all! Wonderful book!

This is a delight. The recipes for different effects are so clear, and the demonstration pieces show exactly what will (should) happen if you have more or less paint, do it in a different order, etc. I can't wait to make some sample pieces. It could have been even better with photos of the jobs being done, or stages and tools in the process. Very inspirational.

Great ideas, detailed instructions, a book I go to constantly as a reference and for inspiration. I have learned so much from this book and created some gorgeous pieces of fabric. It is so much fun!

Great information with step by step instructions. Sue makes it so easy to understand the different types of paints available on the market and which brands are the easiest to work with. The instruction is detailed and even a beginner can do it. I'm looking forward to making more of my own hand painted fabrics!!

Great book, too bad its out of print. Seller did everything they said they would and book was in the condition seller said
