Dog Heroes Of September 11th: A Tribute To America's Search And Rescue Dogs

Synopsis

Dog Heroes of September 11th -- A Tribute to America's Search and Rescue Dogs, now in its Tenth Anniversary second edition, is the first and only major publication to salute the canines that served our nation in the recovery missions following the terrorists' strikes on America. In his foreword to this edition, former New York City mayor Rudolph Giuliani says, "No American could be unmoved by the stories and images of these dogs and their handlers. Their journeys, as told in these pages, reinforce our resolve to persevere, rebuild and keep our nation safe and strong. A testament to man's best friend and his most critical role in American history, Dog Heroes of September 11th pays tribute to 79 canine heroes and their handlers, retelling their heart-stirring stories and photographically capturing many defining moments of the days that followed September 11, 2001. This oversized gift book features over 400 color photographs, many never seen except in this publication. Nona Kilgore Bauer, who has won multiple awards for her books on dogs, interviewed each of the handlers who participated in the recovery efforts at the World Trade Center, the Pentagon, Shanksville, Penn., and the Fresh Kills landfill, the site to which remains from the fallen towers were transported, and lovingly retells their stories of heroism and bravery. In its first edition (released in 2006), Dog Heroes of September 11th won numerous awards, including book of the year from the Dog Writers Association of America, Book-of-the-Month Club, and the Independent Book Publishers Association. The second edition, expanded with over 100 new pages and over 150 new full-color photographs, presents chapters on military working dogs in Iraq and Afghanistan, the therapy dogs who worked at Ground Zero, the SDF's new National Training Center, and post-9/11 rescue missions at home and abroad. A special section, written by selected 9/11 handlers, pays tributes to their canine partners who passed away after their recovery missions. In addition to paying tribute to the dog-and-handler teams that were deployed after the attacks, this I-5 Press book supports the National Disaster Search Dog Foundation (SDF) in its mission to produce certified search and rescue teams to protect our whole nation. A portion of the proceeds of Dog Heroes of September 11th benefits the SDF.

Book Information

Hardcover: 296 pages

Publisher: Kennel Club Books; Second Edition edition (July 19, 2011)

Language: English

ISBN-10: 159378998X

Customer Reviews

I first found out about this book from reading a news paper article about the USAR K-9 teams of Texas Task Force 1 in The San Antonio Express News about what they went through on 9/11 five years ago. Having a strong interest in K-9 teams and possibly wanting to consider it as a career one day I knew I had to get it. After reading this book for the first time I have to say that it was definitely well worth it. Never before have I read such a gripping account of Search and Rescue K-9 teams. This book goes into great detail about the sequences of events that triggered the unparalleled nation-wide response from complete strangers. If you had a trained dog on 9/11 chances are your pager went off or your phone rang that morning calling you away to answer the call of duty. From never before seen photographs and emotionally charged first hand accounts of K-9 handlers Author Nora Bauer puts the reader in the center of the action like no other writer can. From the sights and heartwrenching experiences of Ground Zero, to the massive recovery effort at the Pentagon and finally to sifting through human remains of a catastrophe at the Fresh Kills Landfill across the river from Manhattan in New Jersey. This story not only examines the harrowing aspect of Search and recovery work but it also delves deep into the emotions and mind set of dogs and their handlers as they endure punishing eight to twelve hour shifts combing through the rubble and to providing emotional support to firefighters and other rescue workers on site that had lost some much in such a short period of time.
