## Customer Reviews

Not what I expected. I love to bake from scratch. This book is ideal for someone who like to use boxed brownie mix.

Since 1992 a couple of neighbors from Ohio merged with ambition of making memories through their love of cooking was birthed Gooseberry Patch, now an established business of 25 years. Their family-friendly cookbooks are best sellers and this particular brownie cookbook has lived up to it's standard of high quality. For just about any flavor desired ranging from praline to peanut butter, sour cream, mint, caramel, banana creme, butterscotch, and mocha to name a few- you will delight in making these and serving them in a variety of ways shared. Along with the recipes are tips and ways to make nice gifts through paper bags, stencils, milk carriers, and jars. Especially for holidays, get-togethers, and friendship gifts, these gift ideas can serve a lot of people on a relatively inexpensive budget. Not just a treat for ladies, but this book will inspire you with filling a cowboy hat with brownies for the special men and boys in your life. The reader has the opportunity to submit a recipe and, if chosen, their name and a free copy of the book will be given. Absolutely a quality book that will distinguish you as a "brownie guru" to family and friends.

Ok, I must say I really appreciated the fact that this book took into consideration that not all of us have time to bake things from scratch. While I love to bake, I also am a full time mom who works a full time job at a day care and a part time job as a cashier. If you are someone who bakes everything from scratch this book is not for you. However, for those of us who do not have that luxury, this little tidbit could really come in handy. There are a lot of really yummy ideas in the book that are easy to actually make. I also liked the ideas for the gift jars. For those of us on a tight budget, little gifts like that are very beneficial. I will definitely keep an eye out for more books from these ladies!

I think if you had never made brownies before.. then this is your book. An excellent gift to give a younger man/ woman who is just starting out. maybe a college student, or young married couple. There are some neat ideas in here...and now I am hungry

Who doesn't love something for nothing! This Brownies Cookbook was offered for free from Gooseberry Patch so I downloaded it to my iPhone (Kindle App). Now, I have a nice variety of brownies to choose from when I am looking to bake something.

This is a great collection of Brownie recipes, chock full of creative ways to use pre-packaged brownie mix. There is something for everyone here- from praline to banana cream. Yum. As usual, the book is filled with charming anecdotes and nice ideas for making baking fun- and easy.

I love all of the Gooseberry Patch cookbooks because they feature comfort food at its best. It is great to have it on my Kindle and be able to look up recipes whenever I like. And who doesn't love brownies?

I chose 3 stars because it was just ok. It's not for someone who likes to bake from scratch. However, the book does provide fun ways to "jazz" up the standard brownie mix. Recipes are very simple and easy to follow. Hey it's free, might as well try it.
