Customer Reviews

This book is extremely detailed and much more than I expected. The entire process of tractor restoration is walked through. Steps and information in this book cover scouting your tractor, inspecting it, purchasing it, initial restorative processes all the way through bondo and painting at the end. I am very happy with this process and am ready to use some new ideas and techniques learned from this book on my next restoration!

Excellent book, a must read for everyone considering work on an older tractor.
