Video Production With Adobe Premiere Pro CS5.5 And After Effects CS5.5: Learn By Video

Synopsis

This innovative, in-depth video training course and accompanying 48-page full-color book, is aimed at intermediate users who need to get up speed on the new features of Adobe Premiere Pro and After Effects CS5.5, and expand their knowledge of Adobe's Production Premium Suite. The course takes the user on a journey from script to screen. Beginning with Adobe Story, moving on to Premiere Pro, Audition, Photoshop, After Effects, the Adobe Media Encoder and Encore, the course follows a client brief to produce media assets for broadcast and the web. Experienced instructor Maxim Jago presents nine hours of exceptional quality video tutorials, complete with lesson files, assessment quizzes, and review materials. The video is wrapped in a unique interface that allows the viewer to jump to any topic and also bookmark individual sections for later review. The unique Watch-and-Work mode shrinks the video into a small window to allow the student to work alongside in Premiere Pro and After Effects. Project files used in the lessons are included on the disc so viewers can practice what they've learned, and interactive review questions help reinforce freshly gained knowledge. Selected videos can be downloaded for viewing on iPhones, iPods, and other compatible mobile devices.

Customer Reviews

I bought this course a couple months ago, and i can handle 60 times better my Adobe production cs 5.5..Excellent video course.

the course does not explain things very good and I was not able to get anything valuable from watching this dvd

The instruction is good, the videos are explanatory, but I don't have the full suite of applications that Maxim Jago presents. Jago shifts back and forth between applications, showing the development of graphics and effects. The instruction is good, but probably too advanced for me. I had no experience with any of the Adobe applications before being pushed into the position of having to learn, and quickly! For someone with some experience in using the Adobe editing suites, this would be an excellent skill-builder.
