Customer Reviews

We searched & have finally found the informative guide for our Campbell's Soup "stuff" collection. An excellent book which contains ONLY Campbell's items. So many collectible books listed just a few Campbell items. But, this is THE book we wanted. The format is "user-friendly", by category in alphabetical order. Lots of pictures for comparison. We use the book constantly. We are always looking for unusual Campbell items, and the guide is super helpful. We thank the authors for taking the time to put it all together.

The comprehensive Campbell's Soup collectors' guide will help you identify the many products produced over the years, and estimate their value. It is loaded with razor sharp pictures of over 600 items and includes prices of more than 1,700. Easy to use, as it is arranged in alphabetical order by category of collectible. Provides the collector with a guide of what to pay for items you intend to buy. Each category includes an interesting and useful history and summary of the category. Every Campbell's collector will find this up-to-date book of value.
