Nicely put together brief history on Biblical Coinage. The replica coins are well done and give an excellent representation of the "real" items of that period. It is a shame that they have not brought this book back into production. IF you are looking for numismatic details on Biblical Coinage you will have to go to a more definitive and costly book. This one is a "wet-your-appetite" basic book giving you the basic facts. A "great" introduction book for your grandkids!

I was SO excited to find this book. As a coin collector, it is neat to learn the history of these coins referred to in the Bible. It is a great teaching tool for young and old. Super conversation starter. The replica coins are SUPERIOR to look at, to have those in real life sure would be a nice experience. The book is GREAT, I reccomend to all.Coins of the Bible: Replica Coins from Biblical Times with Other

This book is great for young children. Nineteen pages aren't sufficient for adults but should work fine

for adolescents. The copy coins look good but would only fool the most uninformed collector so you don't have to worry about them being misused.

I gave this as a gift and the couple loved it; they told me it's on display in their home.
