Standard Catalog Of United States Paper (Standard Catalog Of United States Paper Money, 14th Ed. Ed By Robert F. Lemke)

Synopsis

Over 6,000 listings and 15,000 valuations make this the most comprehensive reference catalogue devoted exclusively to U.S. currency issues. Collectors get the latest pricing information for all known U.S. paper money printed since 1813. Many items covered in this respected guide are not listed in any other book. Coverage is given to large and small-size notes, national bank notes, fractional currency, and encased postage. It also features coverage of error notes, military payment certificates, and an extensive guide to authentication of U.S. currency. The catalogue listings are arranged in logical denomination - date of issue style long observed by American cataloguers. Each major section provides essential historical and economic background information allowing collectors and students to understand each issue. --This text refers to an out of print or unavailable edition of this title.

Customer Reviews

This work, along with Friedberg's book and Hessler's work, make up the three primary basic reference works on United States Currency. The Catalog contains an excellent reference section on National Bank Notes, receiving much more press than in Friedberg's work. The pricing, while out of date, is actually fairly realistic in today's market, unlike the Black Book or even Friedberg's book. A great plus is that this work is cross referenced by Friedberg Numbers, which are the standard cataloging numbers used by all dealers and collectors in the hobby. Well worth the investment!

I always use Chesters books to check the value of my collections (Coin and Currency)

The best US paper money catalog out there with lots of valuable information!

Great

I'm interested in catalog of all US paper money. Something o it. Am i find my interesting?
